

## **“Extreme Makeover: Conversion Edition”**

Attention Members: Please pardon our progress as we undergo a system conversion! Our employees are working hard this summer training on a new system in order to better serve you and meet your financial needs. We will “go live” on the new system Monday, October 3<sup>rd</sup>. Until then, you will see “construction signs,” “hard hats,” and other decorations inside our branches – all geared toward getting everyone in the spirit of working hard to better serve YOU! This conversion will not affect your accounts in any way; it will simply serve as a better operating tool for our employees to use each day while serving you. We ask for your patience as we train and convert; and as always, we appreciate your business and look forward to further improving our relationship with you.
